WELCOME TO THE RCA

Photo: Iwan Baan

Founded in 1837, the Royal College of Art is the world's largest community of postgraduate art and design students. It is also the oldest art and design university in continuous operation and has been ranked as the world's number one art and design university for a remarkable nine consecutive years, according to the QS World University Rankings by Subject 2023 – the worldwide survey of academic and industry opinion.

The RCA is research-led, and recognised in the UK-wide REF (Research Excellence Framework) as the UK's most research-intensive institution – with an increased proportion of the College's outputs classed as 'internationally excellent' and 'world-leading' in the most recent REF assessment of 2022.

Studying at the RCA is the starting point for the world's creative leaders. With more than 20,000 RCA alumni across the globe, the RCA's graduates form a unique international network of artists, designers, creators and innovators. Every year, RCA alumni are recognised as leaders in their discipline, making national and international headlines for their work, which shapes the world we live in. Its graduate start-up incubator, InnovationRCA, is one of the most successful in the country with a high proportion of female start-up founders and a high 'survival' percentage after five years of trading.

More than 2,700 students are spread across four schools and research and academic departments, studying at Graduate Diploma, MA, MFA, MDes, MArch, MEd, MRes, MPhil and PhD levels, with plans for this to rise to 3,300 by 2027. The College's mix of professionalism and creative freedom, together with its renowned academic community and rigorous academic framework provides the ecosystem in which students flourish and achieve their highest potential.

Photo: Richard Haughton

In addition, the RCA has a number of established and planned research centres: the Helen Hamlyn Centre for Design; the Material Science Research Centre (which includes the Materials Futures Research Group and the Textiles Circularity Centre); the Intelligent Mobility Design Centre, Computer Science Research Centre, and a future centre in Drawing. The RCA is also home to one of the UK's most successful university incubators, InnovationRCA.

The RCA espouses a hybrid approach, supporting 'traditional' making and technical skills in fine and applied art and design alongside the foundational sciences, engineering and technology which underpin designers' ability to solve today's global challenges. The RCA champions the value of interdisciplinary learning and was the first art and design university in the world to implement a STEAM (Science, Technology, Engineering, Art and Design and Mathematics) academic vision, with investment in new faculty posts in Materials Science; Computer Science and Robotics alongside art and design disciplines. By applying creative insights to evidence-based science, its staff, students, researchers and start-ups are addressing major global challenges such as rapid urbanisation and transport; loss of biodiversity; ageing populations; unsustainable consumption and production; and the rise of AI.

Our Strategy

The RCA's strategic vision is to increase its influence on the world stage of globally ranked universities, punching significantly above its weight, and attracting, supporting and convening the world's most talented faculty, students, artists, designers and creative leaders. For more information on The RCA's Strategic Plan 2022–27, please click on this link: [Strategic Plan 2022–27](#).

Our People

Photo: Richard Haughton

His Majesty King Charles III is Royal Visitor to the RCA (ie Patron). The RCA's Chancellor is Sir Jony Ive, and the Pro-Chancellor and Chair of Council is Sir Peter Bazalgette (please see link to Council independent members' biographies). The RCA's Vice-Chancellor – the CEO of the institution – is Dr Paul Thompson, who joined the College in 2009.

The RCA's academic faculty bring world-leading expertise and industry knowledge to the practice-based model of teaching. There is a core academic and research workforce of 230 FTE, supported by around 170 Associate Lecturers and a wide range of Guest Lecturers who bring 'live' industry experience into the taught curriculum – for example, Amin Taha of GrantOn design, whose work was twice shortlisted for the RIBA Stirling Prize, in 2017 and 2021, teaches in the School of Architecture; and Yao Yingjia, who is Vice President and Chief Designer at Lenovo teaches in the School of Design.

The RCA combines contemporary and industry-focused teaching perspectives. It also employs a team of 95 highly skilled technicians, many of whom themselves have postgraduate qualifications in their fields of specialism, which range from rapid prototyping and subtractive manufacturing to film and sound engineering, and from digital modelling to metal fabrication and jewellery making.

Our Values

Photo: Shaun James

The RCA community operates in line with four agreed values:

Curiosity

We have a tenacious commitment to innovation and openness to change. We positively interrogate ideas, assumptions and plans and welcome the honest scrutiny that is alive in a learning community.

Inclusion

We celebrate diversity and embrace difference as a source of strength. We strive for an inclusive RCA community, removing barriers and challenging exclusionary and discriminatory practices.

Collaboration

We value what happens together and we help and support each other to achieve our collective goals. We work in partnership with our students, staff, alumni, institutions and communities across the globe to make a lasting difference.

Integrity

We are always willing to listen, we offer constructive feedback and we promote accountability, building relationships of mutual trust and respect. We are resilient in the face of challenges, pursuing outcomes with individual, cultural, societal and economic impact.

School of Architecture

Photo: Richard Haughton

The School of Architecture is led by Dr Adrian Lahoud and provides a stimulating and vibrant cultural context for study in one of the world's leading cities for design and the creative industries. The distinctive College environment offers students the opportunity to realise live projects and to work alongside designers and fine artists in an intensive, postgraduate-only environment. Students are encouraged to extend their material, conceptual and technical skills – expanding the potential of their practice while forming a rich set of networks and creative partnerships able to sustain their future careers.

The design studio provides a critical platform for shaping distinctive forms of practice upon graduation. The project-based pedagogy is supported by historical, theoretical and technical seminars where students are introduced to a wide range of design research methods and approaches. Within each programme, opportunities for external engagement, interdisciplinary collaboration and fieldwork are provided in line with the pedagogical ambitions of students and staff.

Environmental Architecture MA:

The Environmental Architecture MA is design-led and project-based. Candidates are expected to be familiar with concepts from environmental science and environmental history, including the potential of new technologies and their impact on social organisation. They should be familiar with contemporary debates regarding the causes and effects of climate change, including relevant conceptual, legal and policy frameworks. Candidates should be familiar with the social and political effects of the climate and environmental crisis, including racial, gender or other forms of discrimination resulting from environmental transformations, as well as with environmental knowledge systems that come out of non-western traditions. They will have experience collaborating on multi-disciplinary teams, on issues related to environmental transformation, climate change and the anthropocene, for example, resource extraction, environmental pollution and contamination, flood risk, conflict studies, land use changes, water scarcity or desertification.

Associate Lecturer (Environmental Architecture MA)

Photo: Richard Haughton

Purpose of the post:

Associate Lecturers (ALs) at the Royal College of Art (RCA) contribute high-quality, postgraduate teaching and tuition to complement and enhance core teaching delivery of Programmes across Schools and Directorates. ALs bring leading industry expertise and specialism, often from diverse disciplines and sectors, ensuring students receive depth and diversity in their Programme learning and multi-disciplinary input during their studies. Depending on the specific scope of your employment you will be required to fulfil elements of the below as appropriate, directed by your Senior Tutor, Head of Programme, or Dean.

Main Duties and Responsibilities:

Learning & teaching:

- Contribute to teaching, delivering high-quality teaching content that meets the needs of individual students.
- Contribute to, and deliver cross-school and cross-disciplinary teaching and related activities as appropriate.
- Provide academic, pastoral and technical (as appropriate) tutorial support to students, including regular one-to-one meetings as agreed.
- Provide regular feedback to students to help them develop their skills and improve the quality of their work.
- Provide up-to-date knowledge of the subject area and professional contexts
- Keep abreast of innovation and best practices in learning and teaching
- Continually update own knowledge and understanding in academic specialism
- Participate in the assessment of student work.

Note:

1. ALs are not expected to participate in research but are expected to deliver research-based postgraduate teaching
2. ALs may contribute to (but will not be responsible for) summative assessment. The role of ALs in summative assessment remains subject to further review.

Academic delivery, administration & citizenship:

- Attends (as appropriate to their fraction) some School Wide or Programme Level planning events as part of Academic delivery, administration & citizenship.
- Participate in field trips in line with programme requirements, supporting student learning and helping to ensure pedagogic value from such trips.
- Undertake risk assessments for work as necessary, complying with the necessary policies and procedures and ensuring the safety of students and colleagues.
- Contribute to curriculum design and supporting material to help ensure high quality academic content and innovation in learning and teaching, and assessment.
- Participate and contribute to Staff Student Consultative Committees in the review of Unit delivery.
- Be committed to the College objectives for Equality and Diversity and participate in mandatory College training, including Unconscious Bias training and Diversity Awareness development.

Person Specification

Essential characteristics of the postholder:

- Interest and experience in pedagogies focusing on the environmental and ecological aspects of architecture;
- Experience in teaching environmentally focused studio or seminar courses, at undergraduate or postgraduate degree level;
- Demonstration of engagement with practice through shared research projects and partnerships;
- Commitment to equality of opportunity and evidence of the ability to work harmoniously with students of all cultures and backgrounds.
- Experience of one-to-one and group teaching and tutoring online and through blended learning modes.
- Experience in the industry context relevant to the recruiting programme.

Desirable characteristics of the postholder:

- A Masters degree in a related discipline.
- Capacity to critically locate pedagogical practice in environmental architecture within a broader social and political field;
- Evidence of the ability to supervise academic work at Masters levels as appropriate to the role.
- Experience in devising and teaching courses at Masters level informed by quality imperatives for the student experience.

Photo: Richard Haughton

Pay & Benefits

Additional Information:

- Salary working 5 days per week: £46,262- £50,258 per annum pro rata inclusive of London Allowance.
- 30 days annual leave plus extended breaks at Christmas and Easter pro-rata for part-time staff
- A contributory defined benefit pension scheme and interest-free season ticket loan are available
- The successful candidate will be required to work at Kensington Campus as well as across the RCA's other London sites (White City and Battersea) as necessary and reasonably requested.
- Term: Fixed term 12 months
- Grade: 8

Photo: Philip Vale

Pension

The Royal College of Art is a member of the Superannuation Arrangements of the University of London (SAUL) which is a contributory defined benefit pension scheme. The college will contribute a sum equal to 16% of your salary while you pay 6%.

Holiday

30 days paid leave a year plus bank and public holidays normally observed in England and Wales. In addition, the college is normally closed for six days a year, one day on either side of Easter and the remainder between Christmas and New Year. Part-time staff will be entitled to the pro rata equivalent.

Season ticket loans

Interest-free loans are available for staff to purchase annual season tickets.

Enhanced maternity and adoption pay

Qualifying employees are entitled to enhanced maternity/adoption pay: 26 weeks' full pay, 13 weeks Statutory Maternity/Adoption Pay. This compares to the statutory provision of 90% of average pay for 6 weeks followed by Statutory Maternity/Adoption Pay for 33 weeks.

Enhanced paternity pay

Qualifying employees are entitled to two weeks' paternity leave entitlement at full pay. This compares to the statutory provision of two weeks' pay at the statutory rate.

Enhanced sick pay

Occupational sick pay after six months' service is three months full pay/three months half pay.

24/7 confidential support

Staff and family members in their household have access to a free, external confidential support service for work, financial, legal, family and personal problems 24 hours a day, 365 days a year.

Occupational health

Occupational Health support for the College is provided by Imperial College's occupational health service at their South Kensington Campus.

Life Cover

Active members of the SAUL pension scheme automatically receive life cover. A lump sum of four times your salary together with a refund of your contributions and a 2/3 pension for your dependent/spouse is payable should you die whilst in employment.

Library

All staff are welcome to join the college library.

Events

All staff are welcome to attend exhibitions, lectures and private views held by academic schools and programmes.
